

**Cant hook.
(Log turner)**

I am regularly moving larger logs. I needed a simple to build and super sturdy tool for rolling and moving logs. This home made log roller is made from 2 sizes of black iron pipe. I have gotten hours of use from this tool.

Materials to build.

Mild steel.

36" x 1" Black iron pipe. For main frame.

28" x 3/4" Black iron pipe. For grabber frame and handle

3 1/2" x 3" x 1/4" Plate. For hinge and Grabber point.

1" x 1/8" x 1 1/4" angle. For end grabber

1 @ 3/8" x 2 1/2" Bolt and nut . For hinge.
